Extreme Engineering Solutions, Inc. (X-ES) Announces XPort4101: A Rugged Graphics PMC/XMC Module with Video Capture

Middleton, WI – December 10, 2009 – Extreme Engineering Solutions is shipping XPort4101, a conduction- or air-cooled XMC/PMC solution featuring the AMD Radeon E2400 graphics processor supporting two independent displays and the Conexant CX23888 video capture device. XPort4101 is a low-power, high-performance module with features including:

- AMD Radeon E2400 graphics processor
- 128 MB GDDR3 SDRAM
- 2D/3D graphics
- Dual independent displays
- Component and composite video capture
- WUXGA 1920 x 1200 DVI resolution
- PCI Express interface
- In-house X-ES operating system support includes:
 - Linux LSP
 - Windows drivers
- Guaranteed 4-hour technical response to all hardware and software questions

Pricing and Availability. XPort4101 is shipping today. Pricing starts at \$ 3,595 and may vary based on configuration and ruggedization level. Volume discounts are available.
